

Secure wound infection prevention

Leukomed[®] Sorbact[®]

Clinically proven wound infection prevention¹

Cost effective surgical site infection reduction²

Safe and unique Sorbact[®] bacteria binding technology

Leukomed[®]
by **Leukoplast[®]**

Leukomed® Sorbact®

Innovative surgical post-operative dressing helps to reduce wound bioburden to colonize by its physical mode of action.

Effectiveness proven in clinical evidence:

- Clinically significant 65% relative risk reduction of acquiring a surgical site infection post caesarean section¹
- Up to 57% cost reduction of SSI when treating caesarean sections, using NHS cost model²
- Effective reduction of the bacterial burden in critically colonised or locally infected wounds³

Unique bacteria-binding Sorbact®

- Effectively binds hydrophobic bacteria and fungi
- No development of bacterial resistance

Bacteriproof adhesive film

- Effectively protects against external contamination
- Breathable and shower-proof

Indications

All post-operative and traumatic wounds with dry to low exudate levels

- Surgical incisions
- Post-operative dehisced wounds
- Lacerations, cuts, abrasions
- Minor burns
